Apogee Semiconductor REACH Declaration - Substances of Very High Concern

The purpose of this document is to inform customers about Substances of Very High Concern (SVHC) present in Apogee Semiconductor products at concentrations exceeding 0.1% by weight. This information ensures compliance with REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL (REACH), dated 18 December 2006. The document reflects the SVHC candidate list as of February 4, 2026.

Some Apogee Semiconductor products contain SVHCs above the 0.1% by weight threshold. Please see Table 1 for a detailed list of these substances.

Substance Name	EC Number	CAS Number	May be Contained in
Lead	231-100-4	7439-92-1	All products with SnPb (Tin-Lead) plating. Lead Content $\leq$ 0.25% of total product mass.

Table 1: SVHC materials

1 Revision History

REVISION	DESCRIPTION	DATE
A00	Initial release.	December 19, 2024
A01	Updated compliance verification based on new chemicals added to the SVHC list.	March 24, 2025
A02	Updated compliance verification based on revised SVHC candidate list date.	February 4, 2026

2 Legal

All product, product specifications and data are subject to change without notice. Apogee Semiconductor provides technical data (such as datasheets), design resources (including reference designs), relia- bility data (including performance in radiation environments), application or other design advice, safety information, and other resources **"as is"** and with all faults, and disclaims all warranties, express and implied, including without limitation any implied warranties of merchantability, fitness for a particular purpose or non-infringement of third party intellectual property rights. These resources are intended for skilled engineers with understanding of high reliability and high radiation environments and its complexities. Apogee Semiconductor is not responsible for: (1) selecting the suitable products for a given application, (2) designing, veri- fying, validating and testing it, or (3) ensuring that it meets any performance, safety, security, or other requirements. These resources are subject to change without advance notice. The use of these resources is restricted to the development of an application that uses the Apogee Semiconductor products described in them. Other reproduction and display of these resources is prohibited. No license is granted to any other Apogee Semiconductor intellectual property right or to any third- party intellectual property right. Apogee Semiconductor disclaims responsibility and reserves the right to demand indemnification for any claims, damages, costs, losses, and liabilities arising out of wrongful use of these resources. The products are provided subject to Apogee Semiconductor's Terms of Sale (https://www.apogeesemi.com/terms) or other applicable terms provided in conjunction with applicable products. The provision of these resources does not expand or otherwise alter applicable warranties or warranty disclaimers for Apogee Semiconductor products. Purchasers of these products acknowledge that they may be subject to and agree to abide by the United States laws and regulations controlling the export of technical data, computer software, electronic hardware and other commodities. The transfer of such items may require a license from the cognizant agency of the U.S. Government.
